

Your Partner for your Success

Made in Germany. Used Worldwide.

For decades we have been manufacturing **high-quality stainless steel components** for the food, cosmetics, chemical and pharmaceutical industry.

We have continuously further developed and extended our product range since the foundation of the company to date. Thanks to this continuous growth our workforce has experienced considerable increase with 471 employees today, enabling us to make substantial **investments** in manufacturing technologies and

production workshops. In 2019 the company generated a turnover of 83 million Euro. We consider ourselves as partner offering more than stainless steel components to our customers. **Technical advice and service** on all aspects of our products form the foundation for long-term customer relationships, based on **mutual trust and reliability**.

Our standard products are supplemented by customized components, which are planned and implemented

in close cooperation with the customers. **State-of-the-art manufacturing technologies**, core competences in the areas of product recovery technology, valve technology, cleaning technology, mixer technology and a consequent quality management system in accordance with **ISO 9001 : 2015** guarantee high-quality and reliable products and service.

As a member of the **NEUMO Ehrenberg Group** we offer components for a wide variety of applications all from one source.

„We are a reliable partner for our customers and suppliers.“

About Us

Joint Growth - For Joint Success

2019 Completion of a representative office complex with a subsequent production hall, warehouse and space for research and development

1948 The company was named „Armaturenwerk Hötensleben“ for the first time

1917 Production of valves for the food industry

1859 Foundation of the fittings factory and metal foundry

History

Faraway, So Close - Always Nearby

In order to be just a short distance away from our customers, we have established a network of affiliates, representatives and sales partners.

Our customers can retrieve the most important decision data locally and receive commercial advice. We also react quickly and competently for technical inquiries.

High warehouse capacities, thanks to a state-of-the-art racking system and random storage for tubes and pipes

together with reliable logistic partners and an in-house logistics fleet assure quick and reliable deliveries.

Our logistics and warehouse center in Hoetensleben, the collection and dispatch warehouse for tubes and pipes in Essenbach (Bavaria) and a collection and dispatch warehouse for small parts and tubes in Korneuburg (Austria) grant short delivery times and high loyalty to delivery deadlines.

Employees

A Team - A Mission - Your Satisfaction

160 years of corporate history stand for continuity, experience and stability. Yet, only the people behind the company, our employees, unite these attributes in their unparalleled vision, dedication and passion. They get the company ready for the future. Accompany us along this path. Our motivated team are at your side.

Sales and Logistics

- Certificate acc. to 3-A Sanitary Standard 63-03 and 78-03
- Approved welding company for pressure tanks and piping in accordance with DIN EN 3834-32 (EN 729-2)
- Manufacturer of pressure tanks and piping in accordance with the AD 2000 regulations
- Certificate acc. to EC Directive 2014/34/EU
- Authorized to restamp tools and products for pressure vessels in accordance with Pressure Equipment Directive (2014/68/EU) and AD 2000 regulations
- EHEDG Type EL-Class I certification

Quality Management

Product Range

The Right Product to Match Your Demand

Connections

- Clamp and flange connections
- Screw connections
- Reductions
- Hose connections
- and many more

Fittings

- Bends
- T-pieces
- Y-pieces and double-Y-pieces
- Crosses

Valve Technology

- Butterfly valves, ball valves
- Leakage butterfly valve
- Non-return valves
- Sampling valves
- Pneumatic actuator with control head, control valve and a comprehensive range of accessories
- and many more

Strainers and Sight Glasses

- Angle type strainers
- Angle type strainer combination
- Dirt traps
- Sight glasses
- Sight glass fittings

**Cleaning Technology**

- Static spray heads
- Rotating spray balls
- Spate cleaners
- Jet cleaners
- Sensors for function monitoring
- Accessories, such as downpipes and welding nipples

**Product Recovery Technology**

- Wide variety of components for your demands
- Pig sending and receiving station
- Drive media control
- Drive media feeding
- Lip pig and tangent pig
- and many more

**Pipes and Assembly Accessories**

- Pipes acc. to DIN, ISO, Inch, SMS
- Support material
- Pipe clamps with and without shaft
- Pipe carriers, pipe supports
- Pipe slides
- Pipe cutting tools
- Hook wrenches

**Custom Manufacturing**

Customer specified design and fabrication

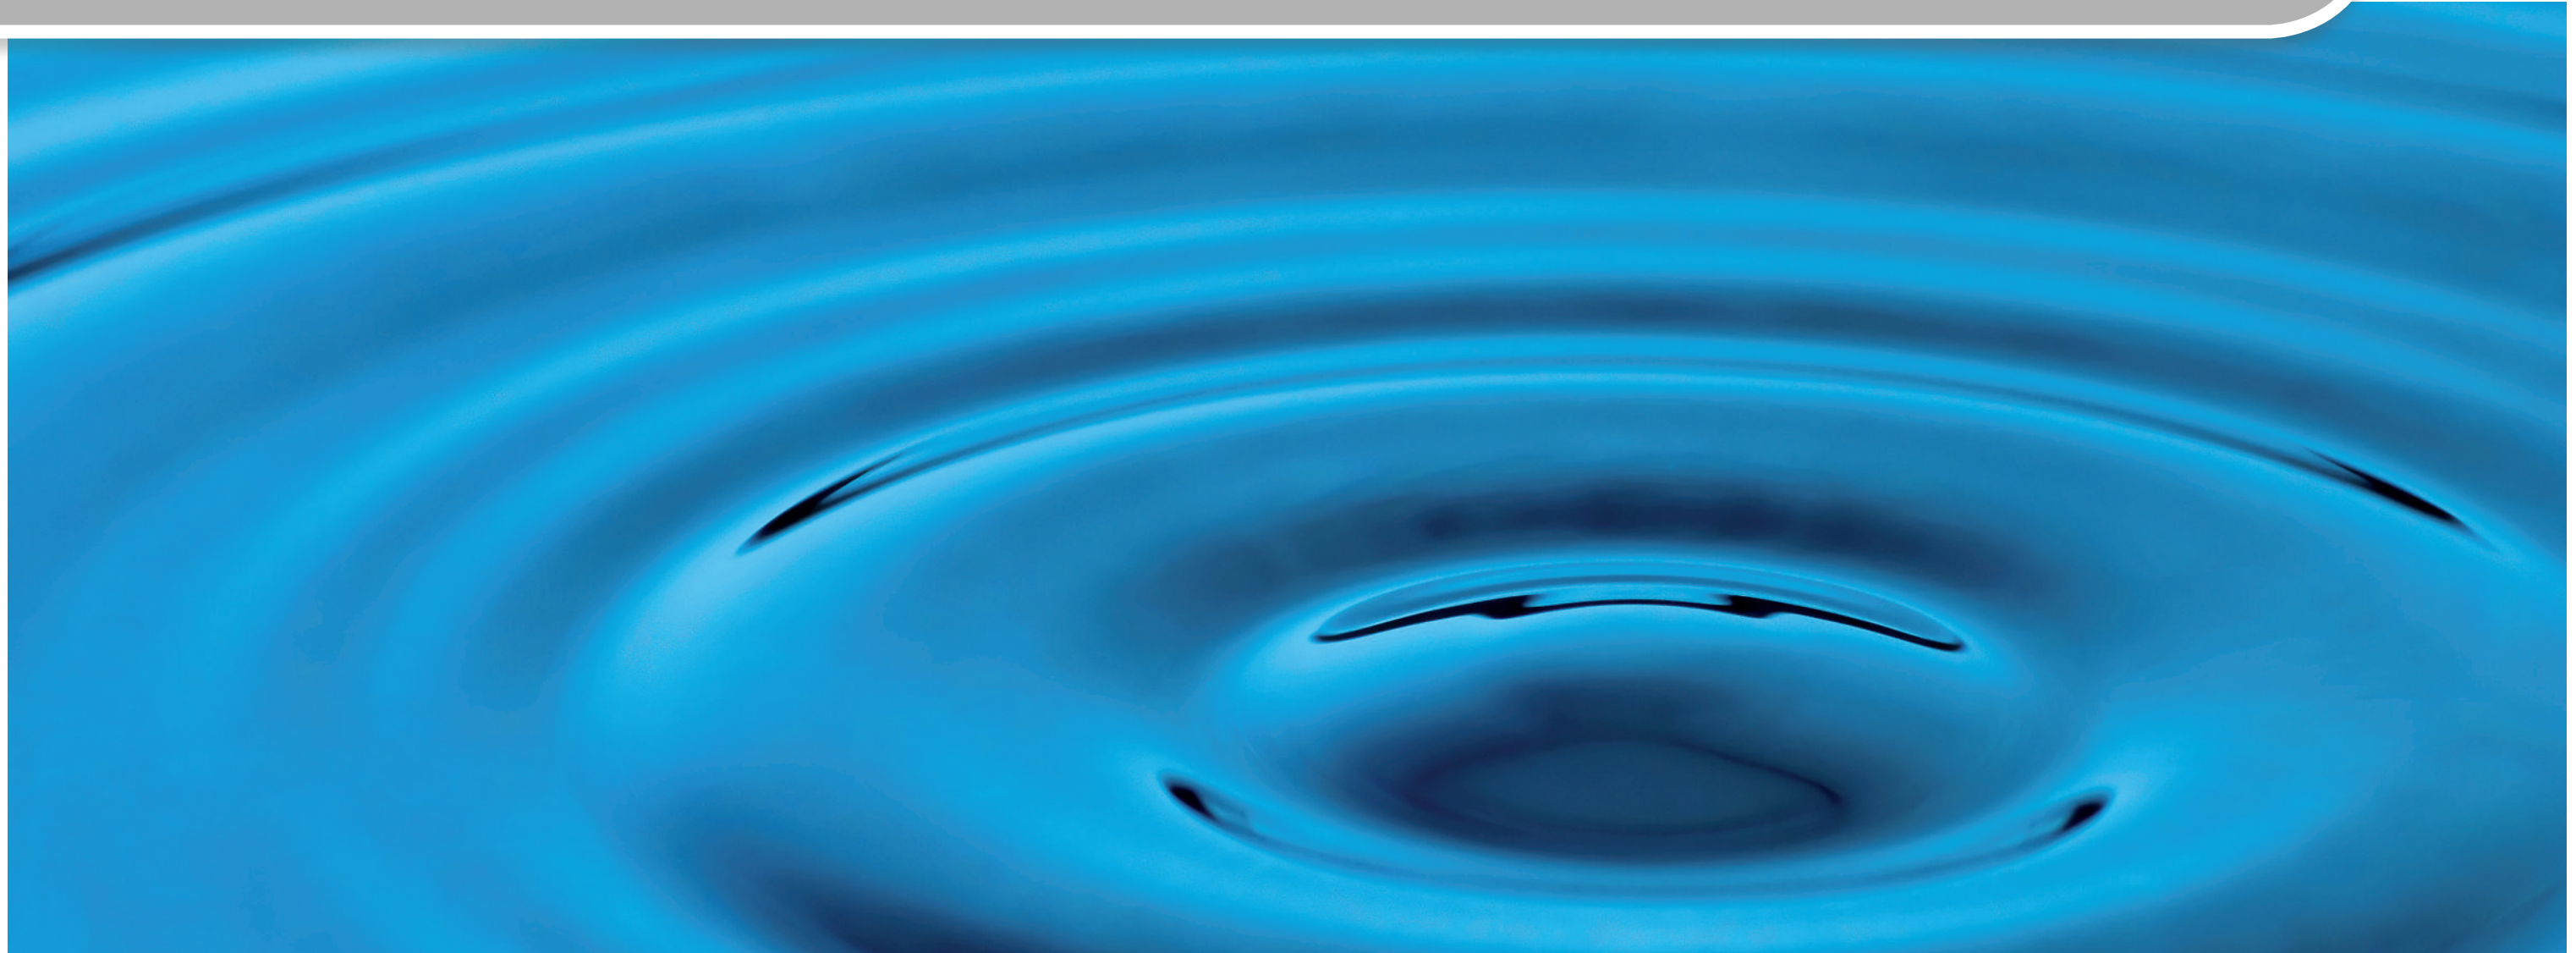

- Filter housings
- Vessels acc. to 97/23/EC (DGRL)
- Double-walled pipelines and distributors
- Coupling panels
- and many more

**Tank Equipment**

- Dome and manhole covers
- Tank dome fittings
- AWH-Connect
- Mixers
